RAIL TAMPING PROJECT PORTWIDE PROJECT NO. 091512 | CONTRACT NO. 070127

1. BIDDER QUESTION

How much ballast will need to be placed?

RESPONSE

For bidding purposes, bid the quantity provided on the Bid Form.

2. BIDDER QUESTION

Will this require a Hi- Rail dump truck?

RESPONSE

Contractor shall provide all equipment and materials necessary to perform the tasks described in, and under the restrictions defined in the bid documents.

3. BIDDER QUESTION

Will the surfacing unit have a full 8 to 10 hour work window per day

RESPONSE

Coordination with Tacoma Rail and Port entities for access to specific rails may result in full day access for the Contractor. Please refer to Section 01 14 00 Work Restrictions in the Project Manual.

4. BIDDER QUESTION

Is a flagman required?

RESPONSE

All project work is within an active railyard or on active tracks. Contractor shall ensure that all federal and local safety procedures (including flagger requirements) are followed throughout the duration of the project.
