TO: Holders List

SUBJECT: 071776 Pony Lumber Dock Repairs (2024)

Responses to Bid Questions # 01

1. BIDDER QUESTION (Email 11-6-24)
2. I am hoping to confirm the bid date of 11/20 at 2 PM is correct for the above project and check if any addenda have been issued. Also, if there's a planholders list as well.

RESPONSE (11/12/24)

Bid opening is 11/20/24 @ 2PM. No Addendum as of 11/12/24. Holders List posted 11/12/24.

3. BIDDER QUESTION (Email 10-28-24)

We are a manufacturer of both UHMW and HDPE and noticed the material is called out for this project. In looking at the dwg's I don't see any details, do you have any more information? Were we to supply material we would certainly make it UV stable which is something you or your contractor should consider.

RESPONSE (11/13/24)

Our project documents contain our Port-wide programmatic maintenance permits that cover a range of activities such as fender and berthing system maintenance. The UHMW and HDPE references appear to be from this general permit document. Contract 071776 does not include any known HDPE or UHMW work.

4. BIDDER QUESTION (Email 10-23-24)

Hello, please add us to the plan holder's list for the Pony Lumber Dock Repairs project.

RESPONSE (11/12/24)

Added today.
