Port of Tacoma 2016 Demolition Program PROJECT NO. 091574 / 091580 / 101066.01 | CONTRACT NO. 070323

1. BIDDER QUESTION

The Port has an annual contract for waste disposal with Pierce County Disposal (LRI). On this project, is it the contractor's responsibility to pay for the disposal cost for the generated demo debris or does the Port pay for this cost direct?

Additionally, does the contractor haul the material directly to the LRI disposal facility or does LRI provide the trucking from the site as well?

RESPONSE

The Port intends for the successful contractor to contract directly with LRI for waste disposal following the requirements outlined in Appendix A, Contract with Waste Disposal Between the Port and LR.

The successful contractor is responsible for transporting the material to the LRI disposal facility.
