

QUESTIONS & RESPONSES #01

RFQ or RFP / TITLE 070693 - On-Call Programmatic Cargo & Facility Planning Services

CONTACT JULI TUSON, PROCUREMENT

EMAIL procurement@portoftacoma.com

PHONE NUMBER 253-383-9436

PROPOSAL or SOQ DUE DATE September 21, 2017 @ 2:00 PM PST

DATE ISSUED 19-Sep-17

	PROPOSER QUESTIONS	PORT RESPONSES
1	We are curious if we can use the attached PDF and make slight edits showcasing our project experience within our proposal to the Port.	Yes, that is fine.
2	The specific technical tasks listed on page 3 of the RFQ includes "Modeling". What specific type(s) of modeling does this task refer to?	Due to the nature of the size of individual Task Orders, modeling would likely entail, simple spreadsheet based models that are useful for calculating capacities of individual terminal components. More sophisticated modeling related to network cargo flows or visual displays of modeling results are likely not to be utilized in this on-call contract.
