ATTACHMENT A – Revised Section 00 41 00 – BID FORM

BIDDER'S NAME: _____

PROJECT TITLE: ON-CALL EARTHWORKS 2018 _____

Contractor bids to furnish all the labor, materials, equipment, superintendence, insurance, performance bond, payment bond, safety requirements, and other accessories and services necessary to estimate, perform, and complete all of the work required by and in strict accordance with the project documents and the implied intent thereof, for the dollar values as identified in the following Schedule of Unit Prices. Contractor shall allocate overhead, insurance, fees, profit and all project costs to Unit Prices as deemed appropriate. **All Contract costs shall be reflected in the Schedule of Unit Prices.**

The following **Schedule of Unit Prices** is a list of work items and quantities that will be used for calculating a total amount in order to determine the low Bidder. The methodology being utilized includes unit quantities that will be applied to the Schedule of Unit Prices supplied by the Bidder. The Bidder shall write its loaded unit prices, extension calculations and the total bid price. After the bid opening, the Port will verify mathematical accuracy with respect to the extensions of unit bid prices and the total bid price. The Contract shall be awarded to the lowest responsible and responsive Bidder. The stated unit bid quantities will specifically not be a part of the resultant Contract Documents. The Port does not represent or warrant to the Bidder that the actual work provided under this Contract (if any) will be consistent with unit quantities that may be assigned by the Port for purposes of determining the low Bidder. On the contrary, the actual work provided under this Contract (if any) may vary substantially from the unit quantities assigned by the Port for purposes of determining the basis of award, and the winning Bidder shall not be entitled to any adjustment in its unit prices as a result of any variation, no matter how significant, between actual unit quantities and those used for purposes of determining the basis of award.
