PROPOSER QUESTIONS	PORT RESPONSES	RFP/ RFQ Section
Is this site going to be hydroseeded or covered in straw for erosion control? I don't see where this is addressed?	Please review Section 01 57 13 - TESC and Project SWPPP along with Plan sheets T01 and T02 for the minimum requirements for temporary erosion control during demolition. Additionally, Section 01 14 00 1.02 B(1)d addresses how areas disturbed during construction are to be restored.	
Is demolition, abatement, and erosion control all under the same bid package?	The scope of work included is specified in Project Manual and Plan set. Please review the entire package for scope of work and project requirements. In particular Sections; 01 10 00 - Summary, 01 14 00 - Work Restrictions, 01 20 00 - Price and Payment Procedures and 01 57 13 - TESC and Project SWPPP may assist in the answer to this question.
